June 15, 2009

Thank you to Representative Rogers and all of the Task Force Members of the Michigan Legislature for allowing public hearings on Interstate Traveler Company, LLC transportation system. The people of the State of Michigan should be informed about technology that will impact their quality of life. This forum is open for all to gain information, explore, ask questions and work on an age old problem of transportation in our cities.

My name is Connie Murry Cole, and more then two decades ago I worked for MDOT, in the mass transit bureau of UpTran. Sent by Governor Milliken, to work with MDOT and the legislature to pass mass transit legislation that would provide safe, cost effective, and an all inclusive public transportation system to its rider ship.

A transportation system that would connect Michigan residents to their cities, places of employment, entertainment hubs, medical and educational centers, just to name a few. We have an opportunity today to provide a mode of transportation that will assist our residents and state in doing all of the above as well as recovering from economic disaster.

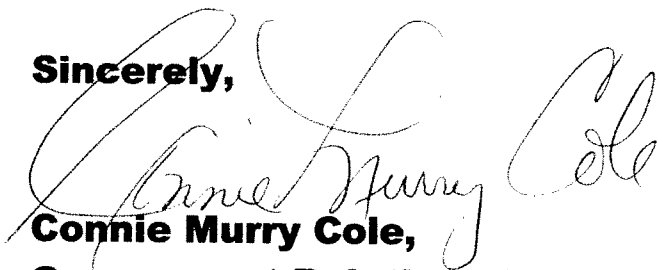

From a rider ship prospective, this mode of transportation, the ITC system, allows it users to

conserve energy by not being dependent on gasoline, being user friendly with the environment, cost effective to the rider ship, conserving commuter time and assessable to all who chose to ride.

Let us not continue to be divided on transportation issues. We have more in common than we do apart. Timing is of the essence, nothing beats a failure but a try. Let's try harder to get our transportation issues resolved, in order to save us all.

Thank you, for this opportunity to express what a difference Interstate Traveler Company system can make.

Sincerely,

A handwritten signature in cursive script, reading "Connie Murry Cole". The signature is written in black ink and is positioned above the printed name.
